

TRAILER STANDS: AutoStand PLUS

A heavyweight solution
for high traffic docks.

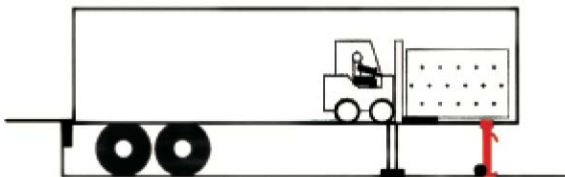

PROTECTING YOUR PEOPLE

LANDING GEAR COLLAPSE

TRAILER UPENDING

WELL-POSITIONED SUPPORT

Help Prevent Trailer Upending and/or Landing Gear Collapse

Aged, rusted landing gear can collapse under the weight of a loaded forklift.

Imbalanced loads can result in trailer upending.

A properly positioned trailer stand is a smart, simple solution.

AutoStand Plus Shoulders the Load

- Easy to position under trailer nose, in seconds.
- Handy lever control adjustment.
- Gas shock, self-leveling system.
- Up to 100,000 lbs. static load capacity.

A Simple Solution

- A dangerous situation is simply averted with AutoStand Plus.
- Instantly creates safer loading environment.
- Protects forklift drivers and workers nearby.

Strong Support

AutoStand Plus is our top trailer stand performer, perfect for heavyweight, high traffic dock environments.
