

Portable Safety Zone
MODEL PSZ-SLM

SAFETY WARNING AND OPERATING INSTRUCTIONS

WARNING

- Rotating parts may cause injury. Use caution when operating to protect hands from injury.
- The Portable Safety Zone is a visual ONLY barrier.
- The Portable Safety Zone is to be used only for its intended purpose.
- Do not connect any Portable Safety Zone components to any moveable object.

OPERATING INSTRUCTIONS

- Position the Portable Safety Zone on a flat, secure surface.
- Position the rubber post bases as required.
- Remove the posts from the storage locations provided in the Portable Safety Zone frame. Insert posts into the rubber bases.
- Pull up on the hand crank knob and turn to lock in the release position.
- Extract the fence the required amount.
- Always create a fence path around the outside of the posts. Use the post clips to insert the fence profile for secure fastening.
- Turn the hand crank to tension the fence. Turn the hand crank knob to insert pin into the closest lock position.
- To retract the fence into the cartridge, remove the fence from the posts. Then, rotate the hand crank as required using the same knob lock procedure. The fence may require guidance to ensure a smooth retraction.
- To replace the fence if damaged, extract the fence fully and extract from the three retaining clips. The fence can be reinstalled in reverse order.
